SUBJECT: DoD Reorganization Legislation

The Senate Armed Services Committee currently has under consideration S.2295, the DoD Reorganization bill. The bill mandates a personnel cutback of 15% in the Defense Intelligence Agency (DIA) management personnel. NSA is exempt from any cutback, and DIA would also like to be protected.

We understand that General Perroots may be calling you in the next few days to solicit your support, as head of the Intelligence Community, in DIA's efforts to gain an exemption from any cutbacks. We are advised that OMB is already on record in opposition to the cutback.
